The 69th Annual Autumn Meeting of the Korean Society of Plastic and Reconstructive Surgeons
(November 2011, COEX Convention Center, Seoul)

Oral Presentation: A Clinical Survey of Surgical Management in the Treatment of Xanthelasma Palpebrarum

WHY? THE PLUS

Clinic where domestic and foreign plastic surgeons want to be educated

* WEBINAR was conducted with Dr. SUGAWARA,
a master of Japanese facial contouring surgery

* About 300 people participated in BISTOOL WEBINAR

Hundreds of doctors from many countries participated in the WEBINAR held every month in 2020 through 2021.
Regardless of COVID-19, we never stop studying to be advanced.

WHY? THE PLUS

Clinic that cares about follow-up care as much as surgery

There were many patients who wanted to come to Korea for the plastic surgery but gave up due to the distance and the language barrier.

THE PLUS Plastic Surgery received such feedback on this and created a counseling team that can consult overseas patients.

THE PLUS established such system as cooperative medical system which has been introduced to guide the patient to the nearest hospital(or clinic) that allows convenient access to the follow-up and treatment.

* Cooperative clinics of each country

THE PLUS Uniqueness

THE PLUS Uniqueness

THE PLUS's Confidence

The most important aspect of plastic surgery is patient's safety and satisfactory results.

We have a highly qualified team with more than 10 years of experience, plastic surgery, active academic research activities, participation in domestic and international medical conferences and seminars, furthermore arranging seminars to provide the knowledge and skills of other surgeons.
